Pro Blue Rack
800, 1000 & 2000VA

LINE-INTERACTIVE

Applications

IT SERVER

COMPUTER

HOME

ALARM

The best quality/price ratio

The Pro Blue Rack is an ideal solution for small server IT 19" Racks. Thanks to its small depth, the UPS can fit in almost any 19" cabinets.
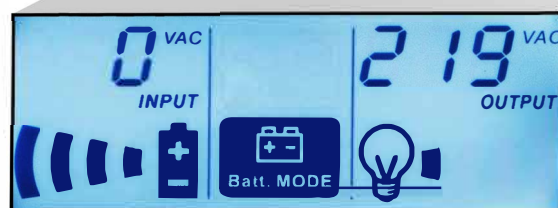

Specifications

- Line-interactive technology (VI)
- Transfer to battery at under- and overvoltage
- UPS with intelligent LCD display
- Automatic computer shutdown
- Automatic Voltage Regulator (AVR, "Boost and Buck")
- Very wide input and voltage range
- Battery (DC) cold start
- Overload and short circuit protection
- Audible and visible alarm
- USB interface including software

- 2 years warranty

LCD display indicator

The multi-functional indicator operates with blue backlight LCD and shows all input, output, load and battery parameters.

VISION
UPS SYSTEMS

800VA — USB, AC input, Output receptacles

1000VA — USB, AC input, Output receptacles

2000VA — USB, AC input, Output receptacles

LINE-INTERACTIVE

Smart USB

It offers real-time power and UPS status monitoring with automatic or scheduled shutdown and many other advanced power management functions.

Monitoring Software Included

Monitoring software for Windows, Mac, Linux included.

Pro Blue Rack	Model		
	800VA	**1000VA**	**2000VA**
Power (Watt)	480W	600W	1200W
Input voltage	220/230/240 Vac		
Input voltage range	162-290 Vac		
Output voltage regulation	+/- 10%		
Transfer time	Typical 2-6 ms, 10 ms max.		
Waveform	Simulated sine wave		
Type & number of battery	12V/9Ah x1	12V/7Ah x2	12V/9Ah x2
Battery charging time	4-6 hours recover to 90% capacity		
Dimensions (DxWxH), mm	230x438x86	300x438x86	300x438x86
Weight, kg	7,7	11,3	14,4
Humidity	0-90% RH at 0-40°C (non-condensing)		
Noise level	Less than 40dB		
USB	Supports Windows family, Linux, Unix and MAC
